

Churt Horticultural and Produce Society Goes Digital

In your wildest imaginings, would you ever have expected to be a member of a **digital** gardening club?

Fortunately Churt's CHAP members have been able to continue to enjoy each other's gardens without the need to visit in these days of Coronavirus lockdown. Chair Maggie Wright has compiled a further montage of photos which members have taken in their gardens.

[Download the full size montage here.](#)

The Summer Show originally planned to be held on Saturday 11 July in the Village Hall is being replaced this year with a virtual show. Members are asked to enter by submitting digital photos taken during the current year in up to six different categories.

The judging will be undertaken by the committee from a pdf composite of anonymised photos for each category.

We can look forward to seeing a pdf showing the top 3 in each category and the best in show.
